

Environment Policy

Kil.n.it Experimental Ceramics Studio Inc. (Kil.n.it) is committed to continual improvement of our environment performance to protect our environment and planet by limiting pollution and waste during our operations and services.

We aim to ensure that our environment is protected through effective management of our services and facilities by avoiding, reducing and controlling activities that cause pollution, or that waste energy and resources.

To achieve this, we commit ourselves to:

- ☐ Comply with applicable statutory, regulatory and other requirements as they relate to the Association;
- ☐ Select materials and consumables with due consideration of environment-friendly standards, insofar as it is possible;
- ☐ Conserve natural resources like fuel, water and energy through optimised usage;
- ☐ Be responsible neighbours in the community where we operate, by promoting and modelling healthy environment practices;
- ☐ Evaluate continual improvement of environment performance using relevant objectives, targets and programs; and
- ☐ Impart necessary awareness and training to employees, artists, members, volunteers and associates at all levels.
